

NORTHERN BEAVER DISPENSING CONVERSIONS

CB - Capsule Conversion

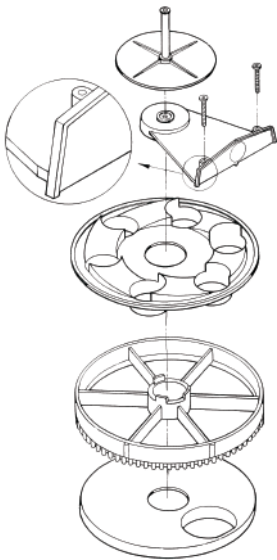

Use - 1 3/4" - 2.3" dia. / 44-58mm capsules

CC - Rocket Capsule Conversion

Capsules only, not for gum

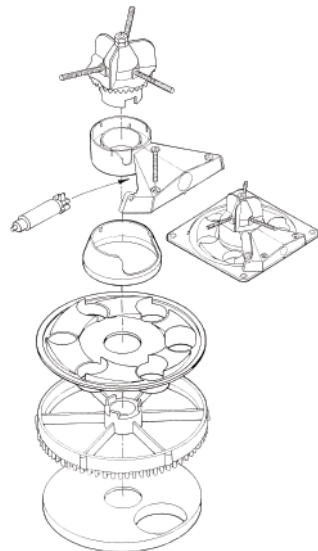

Use - 1.1" dia. / 28mm or 1.3" dia. / 33mm capsules

CG - Rocket Gum Conversion

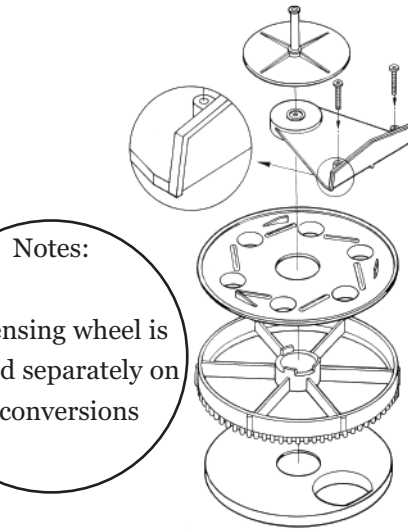

Use - Gumballs

1" - 1 3/8" dia. / 22-36mm
475-849 count (not 850 count)

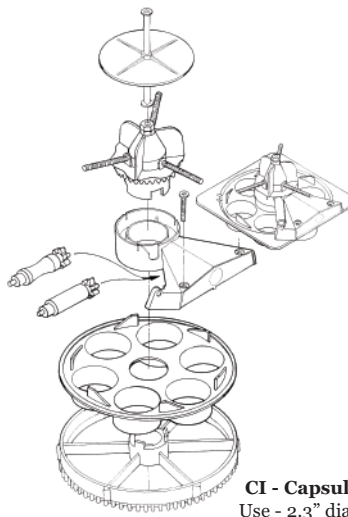

CH - Rocket Roller Capsule Conversion

Use - 1.3" dia. / 33mm or mixed/odd shaped capsules

CD - Gum Conversion

Use - 7/8" - 1" dia. / 22-25mm gumballs
850-1600 count

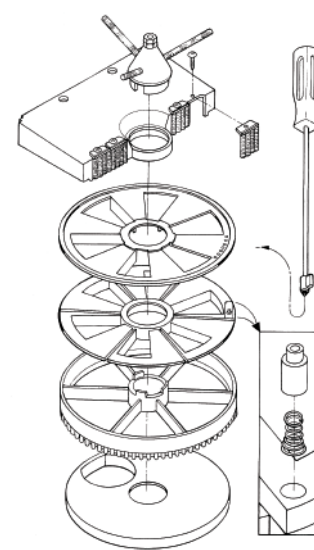

CI - Capsule Roller Conversion

Use - 2.3" dia. / 59mm or mixed/odd shaped capsules

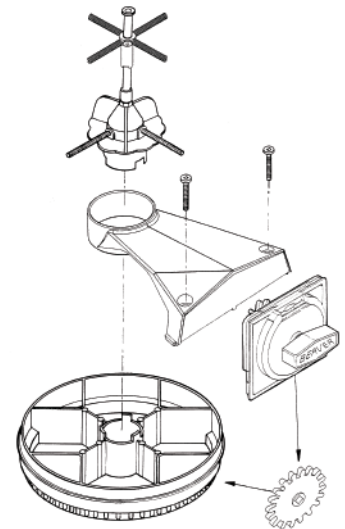

Notes two types of rollers:

Use flat roller if you are using mixed capsule shaped (under 2")
Use concave rollers only with 2.3" round capsules (over 2")

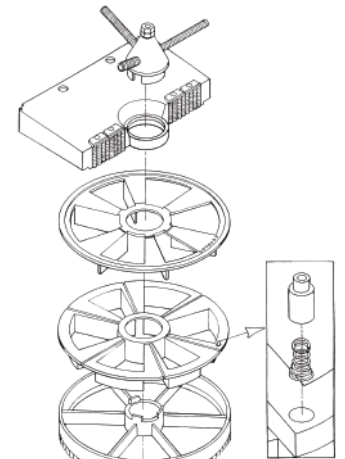

CE - Regular Adjustable Conversion
with soft springs

Use - nuts, confections, chicklets, animal feed
This conversion is used where more than 1 piece is dispensed and you want to control the size of the portions

CF - 3" Capsule Conversion

Use - mike & ikes, jelly beans
3" dia. / 76mm capsules

CJ - High Capacity Adjustable Conversion

Use - nuts, confections, chicklets, animal feed, mike & ikes, jelly beans
With silver springs (hard products)
With black springs (soft products)

This conversion is used where more than 1 piece is dispensed and you want to control the size of the portions. Has larger portions than CE - Regular Adjustable Conversion

Notes:
Dispensing wheel is ordered separately on all conversions
